

Trimline Zircon

A UNIQUE FREESTANDING FIREPLACE. ROUNDED CORNERS AND AN OPEN BOTTOM MAKES IT A PLAYFUL FIREPLACE

Product specifications

FEATURES

-  Balanced flue gas fire
-  Front model
-  Single burner
-  Wood logs fuel bed
-  Ecomax remote control
-  Black glass interior

OPTIONALS

-  Mains adapter GV60
-  Wall bracket remote control
-  Domotica smart connection
-  Wall switch
-  Set for app control
-  Puck control

Styling & Optionals

Ecomax remote control

For absolute ease of use all appliances are supplied with an Ecomax remote system that controls the fire at the touch of a button.

Options Trimline Wi-Fi control

Available upgrades are focused on controllability. Do you want to use the Puck, or connect with your phone using Wi-Fi? It's possible!

The Trimline Zircon is a piece of furniture on its own. Its opinionated appearance is very interesting. It looks playful due to its rounded corners and open bottom. You can leave the bottom empty for a spacious effect, or you can fill it with wooden logs to give it a more traditional look. Just try something out and create your unique fireplace.

This freestanding fireplace can also be installed on narrow walls. The standard version has a burner and a bed made of wooden logs and burning logs for an optimal flames experience, and a black glass interior. On top of that, it comes with the Ecomax remote control and you have the options of adding Wi-Fi-control with our Trimline Fires app.

Installation details

Concentric flue Deco system

Using the THC-CC Deco double wall chimney system the flue gases are safely transported to the outside and fresh combustion-air is pulled inside the appliance. Balanced flue appliances can be installed using a wall terminal so no traditional chimney is needed. THC-CC Deco is made of high quality stainless steel and approved according CE standards in combination with the Trimline appliances.

Balanced flue gas fire

One of the most innovative aspects of Trimline Zircon is that there is no need for an existing chimney to be present. This is all down to the clever features of our balanced flue gas fire, that is fully room sealed. Not only does this make for a highly efficient and safe appliance, but when combined with our concentric flue system, our fires can be positioned in virtually any part of your home with a relatively simple 'chimney breast' built around it. A direct wall outlet from the back of the fire makes the installation even easier.

Appliance name	Trimline Zircon			
Appliance type	Balanced flue built-in/free standing gas fire (C11, C31, C91)			
Purpose	Ambient heating, real flames			
Engine identification	1024			
Gas type-pressure	Natural gas G25.3 – 25 mbar	Natural gas G20 – 20 mbar	Natural gas G25 – 20 mbar	LPG G30/31 – 28-50 mbar
Heat input (kW)	4.5	4.6	4.3	5.4
Heat output max (kW)	3.6	3.9	3.7	4.3
Heat output min (kW)	1.7	2.9	2.6	2.8
Consumption (m ³ /h and kg/h LPG)	0.5	0.49	0.5	0.3
Efficiency (%)	83	84	85	80
Energy label highest efficiency	B	B	B	C
Flue lay out wall termination	Indirect 1m vertical and max 6,5m horizontal			
Weight (kg)	65			
Efficiency class EN613	2			
NOx Class	4			
PIN ID CE	0461CT1095			
Gas connection	3/8" outside connection			
Electrical connection	6VDC battery powered			
Gas control system	Maxitrol SYMAX B6R radio controlled 866 mHz			
Safety	Thermocouple flame supervision and pressure hatches			
Heat distribution	Internal convection system			
Connectivity	Optional App control (Android and IOS), wall switch and domotica connection			
Flue type and diameter	Holetherm-CC concentric flue 100-150mm			
Standard supplied	Remote control			
Optional	Black painted concentric flue DECO CC			
Remarks	Distance to combustibile walls, see installation manual
